## Exercise

Here's the definition of a query with a **WHERE** clause again, go ahead and try and write some queries with the operators above to limit the results to the information we need in the tasks below.

```
Select query with constraints
SELECT column, another_column, ...
FROM mytable
WHERE condition
    AND/OR another_condition
    AND/OR ...;
```

Table: Movies

Director	Title
Pete Docter	Monsters, Inc.
Andrew Stanton	Finding Nemo
Brad Bird	The Incredibles
Brad Bird	Ratatouille
Andrew Stanton	WALL-E
Pete Docter	Up
Lee Unkrich	Toy Story 3
Brenda Chapman	Brave
Dan Scanlon	Monsters University
Brenda Chapman	WALL-G

```
SELECT director,title FROM MOVIES WHERE director NOT LIKE "John%"
```
